

# DocsPlus Installation Instructions

Registration .....	1
Install to a standalone computer .....	1
Install to computers on a network .....	2
Managing licenses .....	2
Contact Support.....	2

## Registration

Ensure your DocsPlus serial number is registered at [activate.cricksoft.com](https://activate.cricksoft.com).

This will enable you to manage your licenses and enable us to locate your serial number if it becomes lost in future.

## Install to a standalone computer

1. Download the latest version from:  
[download.cricksoft.com/docsplus/docsplus.dmg](https://download.cricksoft.com/docsplus/docsplus.dmg)
2. Choose **Install DocsPlus on this computer** and click **Install**.
3. When prompted, provide your **serial number** (located in the box).
4. Follow the on-screen instructions.

## Install to computers on a network

1. Create a folder named **Crick** on the server:
  - Make the **Crick** folder a Share Point.
  - Ensure the **Everyone** group has **Read/Write** access to the **Crick** folder.
2. On a client Mac download the latest version from:  
[download.cricksoft.com/docsplus/docsplus.dmg](http://download.cricksoft.com/docsplus/docsplus.dmg)
3. Choose **Install to computers on the network** and click **Install**.
4. When prompted, provide your **serial number** (located in the box).
5. When prompted, browse to **Crick** Share Point from Step 1 for the **Network install path** and **Shared Files path**.
6. When the network setup finishes, it generates a **DocsPlus Client.dmg** in the **Crick** Share Point.

You can then do one of the following:

- Double-click the **DocsPlus Client.dmg** and run the **DocsPlus Installer.pkg** on each client.
- Deploy the **DocsPlus Installer.pkg** via Apple Remote Desktop. (Please visit the Apple website for information on deploying software via Apple Remote Desktop.)

## Managing licenses

To move a license from one computer to another, visit the **License Management** page at:  
[activate.cricksoft.com](http://activate.cricksoft.com)
